

# LEVEL 3® CLOUD CONNECT SOLUTIONS

PRIVATE, SECURE CONNECTIVITY TO THE CLOUD

# Level 3<sup>®</sup> Cloud Connect Solutions

## Private, Secure Connectivity to the Cloud

### PREDICTABLE AND RELIABLE PERFORMANCE

Maintain control over the end-to-end performance of applications as you migrate them to public cloud

### SIMPLIFIED SECURITY

When choosing private connectivity, the applications you migrate and optimize to the cloud are within your trusted perimeter

### DYNAMIC AGILITY

SDN lifecycle service orchestration allows you to take control over your user experience and dynamically respond through our Adaptive Network Control Solutions

### GLOBAL CONNECTIVITY

Connect offices around the world to the local cloud and data center resources needed to run mission-critical applications

## Level 3 Cloud Connect Solutions

- **Network Portfolio:** The network technology that fits partners' and customers' desired architectures
- **Global Reach:** Cloud connections in NA, EMEA, LATAM, and APAC
- **Connectivity:** Extensive Layer 1,2 & 3 connectivity options, globally for most major CSPs
- **CSP Integration:** Tier 1 global partners, Tier 2 local partners, as well as connectivity, APIs and portals
- **Data Center Connectivity:** 350+ Level 3 data centers, 500+ third party data centers
- **Ecosystem Momentum:** Joint solution and go-to-market strategies with our partners (Microsoft Azure for Office 365, AWS Compliance Bundle)
- **Revolutionized Connectivity:** Self service, on-demand experience with Enhanced Management and Dynamic Connections offerings; innovation testing with our SDN capabilities
