Enhanced Service Provider or "ESP": Enhanced service providers are providers of services over common carrier transmission facilities that employ computer processing applications that act on format, content, code, protocol or similar aspects of a subscriber's transmitted information; that provide the subscriber with different or restructured information; or involve end user interaction with stored information.

Joint User: A person, firm or corporation which is designated by the Customer as a user of services furnished to the Customer by the Company and to whom a portion of the charges for the service will be billed under a Joint User arrangement as specified in the Company's tariff.

- B. Where, prior to cancellation by the Customer, the Company incurs any expenses in installing the service or in preparing to install the service that it otherwise would not have incurred, a charge equal to the costs the Company incurred, less net salvage, shall apply, but in no case shall this charge exceed the sum of the charge for the minimum period of services ordered, including installation charges, and all charges others levy against the Company that would have been chargeable to the Customer had service begun (all discounted to present value at six percent (6%)).

Where the Company incurs any expense in connection with special construction, or where special arrangements of facilities or equipment have begun, before the Company receives a cancellation notice, a charge equal to the costs incurred, less net salvage, applies. - B. At the expiration of the initial term specified in each Service Order, or in any extension thereof, service shall continue on a month to month basis at the then current rates unless terminated by either party. Any termination shall not relieve Customer of its obligation to pay any charges incurred under the service order and the tariffs of the Company prior to termination. The rights and obligations which by their nature extend beyond the termination of the term of the service order shall survive such termination.
- C. The tariffs of the Company shall be interpreted and governed by the laws of the State of California.

The liability of the Company for damages arising out of the furnishing of its services, including but not limited to mistakes, omissions, interruptions, delays, or errors, or other defects, representations, or use of these services or arising out of the failure to furnish the service, whether caused by acts or omissions, shall be limited to the extension of allowances for interruption as set forth in Rule 8.1, following. The extension of such allowances for interruption shall be the sole remedy of the Customer and the sole liability of the Company. The Company will not be liable for any direct, indirect, incidental, special, consequential, exemplary or punitive damages to Customer or End User as a result of any Company service, equipment or facilities, or the acts or omissions or negligence of the Company or Company's employees or agents.

- E. The Company does not guarantee nor make any warranty with respect to installations it provides for use in an explosive atmosphere. The Customer shall indemnify and hold the Company harmless from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, whether suffered, made, instituted, or asserted by any other party or person(s), and for any loss, damage, or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal presence, condition, location, or use of any installation so provided.
- F. The Company reserves the right to require each Customer to sign an agreement acknowledging acceptance of the provisions of this paragraph as a condition precedent to such installations.
- G. The Company is not liable for any defacement of or damage to Customer or End User premises resulting from the furnishing of services or equipment on such premises or the installation or removal thereof, unless such defacement or damage is caused by the gross negligence or willful misconduct of the Company's agents or employees.
- H. The entire liability for any claim, loss, damage or expense from any cause whatsoever shall in no event exceed sums actually paid the Company by Customer for the specific services giving rise to the claim. No action or proceeding against the Company shall be commenced more than one year after the service is rendered, or as required by California Law.
- I. The Company shall not be liable for any damages or losses due to the fault or negligence of the Customer or due to the failure or malfunction of Customer provided equipment or facilities.
- J. The Company shall not be liable for any damages resulting from delays in meeting any service dates due to delays resulting from normal construction procedures. Such delays shall include, but not be limited to, delays in obtaining necessary regulatory approvals for construction, delays in obtaining right-of-way approvals and delays in actual construction work.

RULE 5 –LIABILITY OF THE COMPANY (CONT'D)

- K. The Company shall not be liable for any damages whatsoever to property resulting from the installation, maintenance, repair or removal of equipment and associated wiring unless the damage is caused by the Company's willful misconduct or gross negligence.
- L. **THE COMPANY MAKES NO WARRANTIES OR REPRESENTATIONS, EXPRESS OR IMPLIED EITHER IN FACT OR BY OPERATION OF LAW, STATUTORY OR OTHERWISE, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE, EXCEPT THOSE EXPRESSLY SET FORTH IN ITS TARIFFS.**
- M. The Company shall not be liable for any damages whatsoever associated with service, facilities, or equipment which the Company does not furnish or for any act or omission of Customer or any other entity furnishing services, facilities or equipment used for or in conjunction with Company.

RULE 6 – NOTIFICATION OF SERVICE AFFECTING ACTIVITIES

To the extent possible, the Company will provide the Customer reasonable notification of service-affecting activities that may occur in normal operation of its business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements and routine preventative maintenance. Generally, such activities are not specific to an individual Customer but affect many Customers' services. No specific advance notification period is applicable to all service activities. The Company will work cooperatively with the Customer to determine the reasonable notification requirements. With some emergency or unplanned service-affecting conditions, such as an outage resulting from cable damage, notification to the Customer may not be possible.

In the event of prior knowledge of an interruption of service for a period exceeding one day, the Customers will, if feasible, be notified in writing, by mail, at least one week in advance.

RULE 7 - PROVISION OF EQUIPMENT AND FACILITIES

- A. All services along the facilities between the point identified as the Company's origination point and the point identified as the Company's termination point will be furnished by the Company, its agents or contractors.
- B. The Company may undertake to use reasonable efforts to make available services to a Customer on or before a particular date, subject to the provisions of and compliance by the Customer with, the regulations contained in this tariff.
- C. The Company undertakes to use reasonable efforts to maintain only the facilities and equipment that it furnishes to the Customer. The Customer, Joint User, or End User may not, nor may they permit others to, rearrange, disconnect, remove, attempt to repair, or otherwise tamper with any of the facilities or equipment installed by the Company, except upon the written consent of the Company.
- D. Equipment the Company provides or installs at the Customer's premises for use in connection with the services the Company offers shall not be used for any purpose other than that for which the Company provided the equipment.
- E. The Customer shall be responsible for the payment of service charges as set forth herein for visits by the Company's agents or employees to the premises of the Customer, Joint User, or End User when the service difficulty or trouble report results from the use of equipment or facilities the Customer, Joint User, or End User provided.
- F. The Company shall not be responsible for the installation, operation, or maintenance of any Customer provided communications equipment. Where such equipment is connected to the facilities furnished pursuant to this tariff, the responsibility of the Company shall be limited to the furnishing of facilities offered under this tariff and to the maintenance and operation of such facilities; subject to this responsibility the Company shall not be responsible for:

RULE 7 – PROVISION OF EQUIPMENT AND FACILITIES (CONT'D)

The Customer, End User, or Joint User is responsible for ensuring that Customer provided equipment connected to Company equipment and facilities is compatible with such Company equipment and facilities. The magnitude and character of the voltages and currents impressed on Company provided equipment and wiring by the connection, operation, or maintenance of such equipment and wiring shall be such as not to cause damage to the Company provided equipment and wiring or injury to the Company's employees or to other persons. Customer will submit to Company a complete manufacturer's specification sheet for each item of equipment that is not provided by the Company and which shall be attached to the Company's facilities. The Company shall approve the use of such item(s) of equipment unless such item is technically incompatible with Company's facilities. Any additional protective, equipment required to prevent such damage or injury shall be provided by the Company at the Customer's expense.
- G. Any special interface equipment necessary to achieve compatibility between the facilities and equipment of the Company used for furnishing Company services and the channels, facilities, or equipment of others shall be provided at the Customer's expense.
- H. Company may be connected to the services or facilities of other communications carriers only when authorized by, and in accordance with, the terms and conditions of the tariffs or interconnection agreements of the other communications carrier which are applicable to such connections.

RULE 8 - NON-ROUTINE INSTALLATION

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours and/or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

RULE 9 – OWNERSHIP OF FACILITIES

Title to all facilities provided in accordance with the tariffs of the Company remains with the Company, its agents or contractors. The Customer shall not have, nor shall it assert, any right, title or interest in all the fiber optic or other facilities and associated equipment provided by the Company hereunder.

RULE 10 – GOVERNMENT AUTHORIZATIONS

The provision of services is subject to and contingent upon the Company obtaining and retaining such approvals, consents, governmental authorizations, licenses and permits, as may be required or be deemed necessary by the Company. The Company shall use reasonable efforts to obtain and keep in effect all such approvals, consents, authorizations, licenses and permits that may be required to be obtained by it. The Company shall be entitled to take, and shall have no liability whatsoever for, any action necessary to bring services into conformance with any rules, regulations, orders, decisions, or directives imposed by the Federal Communications Commission or other applicable agency, and the Customer shall fully cooperate in and take such action as may be requested by the Company to comply with any such rules, regulations, orders, decisions, or directives.

RULE 11 - UNIVERSAL EMERGENCY TELEPHONE NUMBER SERVICE

- A. This tariff does not provide for the inspection or constant monitoring of facilities to discover errors, defects or malfunctions in the service, nor does the Company undertake such responsibility.
- B. 911 information consisting of the names, addresses and telephone numbers of all Customers is confidential. The Company will release such information via the Data Management System only after a 911 call has been received, on a call by call basis, only for the purpose of responding to an emergency call in progress.
- C. The 911 calling party, by dialing 911, waives the privacy afforded by non-listed and non-published service to the extent that the telephone number, name and address associated with the originating station location are furnished to the Public Safety Answering Point.
- D. After the establishment of service, it is the Public Safety Agency's responsibility to continue to verify the accuracy of and to advise the Company of any changes as they occur in street names, establishment of new streets, changes in address numbers used on existing streets, closing and abandonment of streets, changes in police, fire, ambulance or other appropriate agencies' jurisdiction over any address, annexations and other changes in municipal and county boundaries, incorporation of new cities or any other similar matter that may affect the routing of 911 calls to the proper Public Safety Answering Point.
- E. Liability Providing 9-1-1, E9-1-1
- E.1 The Company's entire liability to the Customer or any person for interruption or failure of 9-1-1 service shall be limited by the terms set forth in this rule. This 9-1-1 service is offered solely for the use of the Customer or to assist the Customer in providing 9-1-1 emergency service in conjunction with applicable fire, police and other public safety agencies. By providing this service to the Customer, the Company does not create any relationship or obligation, direct or indirect, to any third party other than the Customer.
- E.2 The Company shall not be liable for civil damages, whether in contract, tort or otherwise, to any person, corporation, or other entity for any loss or damage caused by any Company act or omission in the design, development, installation, maintenance or provision of 9-1-1 service other than an act or omission constituting gross negligence or wanton or willful misconduct. However, in no event shall the Company's liability to any person, corporation, or other entity for any loss or damage exceed an amount equal to the prorated allowance of the tariff rate for the service or facilities provided to the Customer for the time such interruption to service or facilities continues, after notice by the customer to the Company. No allowance shall be made if the interruption is due to the negligence or willful act of the Customer.

The Company accepts no responsibility for obtaining subscriber record information from private telecommunications systems.
- E.4 The Company shall not be liable or responsible for any indirect, incidental, or consequential damages associated with the provision of 9-1-1 service, including, by way of example and without limitation, when a failure or interruption of 9-1-1 service is due to the attachment of any equipment by a Customer to Company facilities. The Company shall not be liable for any civil damages caused by an act or omission of the Company in good faith release of information not in the public record, including non-published subscriber information, to emergency service providers responding to calls placed to a 9-1-1 service or host providers using such information to provide a 9-1-1 service.

A.5 In the case of such transfer, the telephone corporation or provider to which the call is transferred shall identify itself and inform the caller of the transfer's effect on the applicable rates and charges, before any charges are incurred.

B. The Company will comply with the following provisions:

- B.6 Billing of the Customer by the Company will begin on the Service Commencement Date, which is the first day following the date on which the Company notifies the Customer that the service or facility is available for use, except that the Service Commencement Date may be postponed by mutual agreement of the parties, or if the service or facility does not conform to standards set forth in the tariffs of the Company or the Service Order. Billing accrues through and includes the day that the service, circuit, arrangement or component is discontinued.

RULE 14 - PAYMENT ARRANGEMENTS (CONT'D)

- B.7 With respect to business Customers only, if any portion of the payment is received by the Company after the date due, or if any portion of the payment is received by the Company in funds which are not immediately available, then a late payment penalty shall be due to the Company. In addition, where special construction is involved, the advance payment may also include an amount equal to the estimated nonrecurring charges for the special construction and recurring charges (if any) for a period to be set between the Company and the Customer. The advance payment will be credited to the Customer's initial bill and may be required in addition to a deposit.

- B.2 Applicant has had previous verifiable service with any Company affiliate anywhere within the region but has an outstanding and unpaid bill for service; or has not established satisfactory credit. Satisfactory credit for a service Customer is defined as twelve consecutive months of service without a suspension of service for nonpayment or with no more than one notification of intent to suspend service for nonpayment.
- B.3 Applicant for nonresidential service will be given credit for previous nonresidential service only if the applicant is same business entity to which such service was previously provided.

RULE 16 - DEPOSITS (CONT'D)

Such requirement will be imposed when a payment history includes a suspension of service for nonpayment during the previous twelve month period.
- D The Company reserves the right to provide for installment payment of the deposit if the circumstances warrant.
- E Any deposit required of an existing Customer is due and payable within ten days after the requirement is imposed. The ten day period shall be measured from the mailed date of the written notice. If said deposit is not paid within the aforementioned time frame, the Company may suspend service to the Customer without further notice.

RULE 16 - DEPOSITS (CONT'D)

- G When it is determined that a deposit is required under the conditions specified above, the applicant or Customer may, in lieu of or in addition to making the deposit, arrange for an acceptable third party to guarantee payment of his charges by executing on his behalf a Guarantee of Payment Agreement with the Company. An acceptable third party guarantor for service is a current non-residential Customer with at least two years continuous service, whose payment history for the most recent twelve month period is satisfactory.
- H The fact that a deposit has been made in no way relieves the Customer from complying with the Company's regulations as to advance payments, or the prompt payment of bills on presentation.
- I The Company will compute simple interest on deposits using the 3-month commercial paper rate published by the Federal Reserve Board on November 30th of the prior year for each full month deposits are held. No late charges or penalty may be imposed on the amount in dispute deposited with the Commission. During the time any Consumer Affairs Branch review is pending, no late charges or penalties may be collected, the charge may not be sent to collection, and no adverse credit report may be made based on non-payment of the charge. (T) (N) | | | | | (N)
- B Upon violation of any of the other material terms or conditions for furnishing service the Company may, by giving five (5) days prior notice in writing to the Customer, discontinue or suspend service without incurring any liability if such violation continues during that period.
- C Upon condemnation of any material portion of the facilities used by the Company to provide service to a Customer, or if a condition immediately dangerous or hazardous to life, physical safety or property exists, or if a casualty renders all or any material portion of such facilities inoperable beyond feasible repair, the Company, by notice to the Customer, may discontinue or suspend service without incurring any liability.
- D Upon the Customer's insolvency, assignment for the benefit of creditors, filing for bankruptcy or reorganization, or failing to discharge an involuntary petition within the time permitted by law, the Company may immediately require a deposit without incurring any liability.

The Customer is responsible for the payment of Federal excise taxes, gross receipts, access, state and local sales and use taxes and all taxes, fees, surcharges (however designated) and other exactions imposed on the Company or its services by governmental jurisdictions, other than taxes imposed generally on corporations. Any taxes imposed by a local jurisdiction (e.g. county and municipal taxes) will only be recovered from those customers residing in the affected jurisdictions. All such taxes, fees, and charges shall be separately designated on the Company's invoices, and are not included in the tariffed rates. It should be the responsibility of the Customer to pay any such taxes that subsequently become applicable retroactively.

 - Direct Inward Dial (DID) Service
 - Direct Inward Dial and Direct Outward Dial (DID/DOD) Service

SECTION 1 – DESCRIPTION OF SERVICES (CONT'D)

1.3 Direct Inward Dial (DID) Service

- 1.3.1 DID service provides a Customer with a voice grade telephonic communications trunk channel to receive incoming voice or data calls to local telephone numbers assigned to the Customer. DID Service does not provide a line-side connection. DID Service transmits the dialed digits for all incoming calls, allowing the Customer's incoming calls to be routed as required by the Customer to the Customer's designated equipment. Charges for DID capability and DID number blocks may apply in addition to charges specified for private lines contained herein (or contained in Tariff No. PUC 1-T) and other charges that may apply in order to deliver incoming calls to the Customer's designated equipment, depending upon Customer location and subject to the availability of facilities.
- 1.3.2 So the Company may efficiently manage its numbering resources, the Company, at its sole discretion, reserves the right to limit the quantity of DID number blocks a Customer may obtain. Requests for 30 or more DID number blocks must be provided to the Company in writing no less than five (5) months prior to activation. In addition, the Company reserves the right to review vacant DID stations or stations not in use to determine their utilization. Should the Company determine, based on its own discretion, that there is inefficient number utilization, the Company may reassign the DID numbers. The Company also reserves the right to provision service based upon the availability of facilities and equipment necessary to support the Customer's specific service requirements; pursuant to Section 1.3.1 above, additional charges shall apply where the Company provides service to Customers requiring such additional facilities or equipment.
- 1.3.3 The Customer has no property right to the telephone number or any other call number destination associated with DID service furnished by the Company, and no right to the continuance of service through any particular end office. The Company reserves the right to change such numbers, or the end office designation associated with such number, or both, assigned to the Customer, where the Company deems it necessary to do so in the conduct of its business.
- 1.3.4 For special situations, rates for DID Services will be determined on an Individual Case Basis (ICB) and specified by contract between the Company and the Customer. Notices of such contracts, if required, will be submitted to the Commission pursuant to Commission Rules.

SECTION 1 – DESCRIPTION OF SERVICES (CONT'D)

1.3.5 DID Service Rates

	<u>Non-Recurring</u>	<u>Monthly Recurring</u>
Individual DID Numbers	N/A	\$0.50 per DID Number

1.3.6 Customer shall not route or transmit traffic originated through toll free (8XX) dialing, or traffic typically subject to reverse billing treatment by any means, including but not limited to mapping to any Carrier Identification Codes (CIC), mapping to or in conjunction with any Level 3 DID numbers that utilize the Level 3 network, or use any other routing method that may cause the originating telephone company to bill Level 3 for the origination of such traffic, without first obtaining explicit written permission from an officer of Level 3. Customers transmitting or routing such prohibited traffic shall be subject to immediate discontinuance of its service or service arrangements without advance notice, and Customer shall be liable for any charges billed to Level 3 due to such transmission or routing. In the event that Customer sends calls to Level 3 that are not approved for termination, then Customer shall pay Level 3 an additional \$.04 per minute for all of its toll free (8XX) or reverse billing originated traffic. Transmission or routing of toll free (8XX) or reverse billing type of traffic to any ports or DID numbers provided by Level 3 without complying with the foregoing requirements may result in the immediate termination of Service by Level 3, in its exclusive discretion, without prior written notice to Customer.

It transmits the dialed digits for incoming or outgoing calls, allowing the Customer's calls to be routed as required by the Customer to the Customer's designated equipment. Charges for individual DID/DOD number blocks apply in addition to charges specified for private lines contained herein (or contained in Tariff No. PUC 1-T), and other charges may apply in order to deliver calls to the Customer's designated equipment, depending upon Customer location and subject to the availability of facilities. Other charges will apply for conversion to IP and IP transport/switching before delivery to customer as part of the Enhanced Service. ESP long distance services can be provided in conjunction with DID/DOD Service or Customers may choose to route traffic to other carriers for long distance termination.
