

Level 3<sup>®</sup> Voice Services provide the best of proven, new technology (SIP) with legacy voice technologies, with access across the globe. We own and operate one of the largest, most secure voice networks to enable competitive cost structures and new, efficient ways of managing voice traffic.

## Level 3 Enterprise Toll Free Keep Your Customers Happy and Your Business Growing

Toll-free calling is a valuable service to your customers and your business, but keeping costs down is crucial to receiving maximum value from your toll-free service investment. With the Level 3<sup>®</sup> Enterprise Toll Free service, you can lower your usage rates and consolidate your toll-free traffic. With low, flat rates for interstate, intrastate and international calls, the Enterprise Toll Free service is an ideal solution for your business. Level 3 Communications lets you choose from dedicated or switched solutions, which deliver a powerful complement of advanced routing services and features.

### Business Solutions

- **Support Business Growth:** Our high-performance, scalable network is designed to accommodate your current and future traffic. We can provide the services you need today and aid in the migration for tomorrow. Whether you need dedicated or switched, TDM or SIP services, Level 3 has the solution to meet your needs.
- **Mission Critical Customer Interactions:** Leverage Level 3's Tier 1 national network and full-featured routing and control capabilities to improve the mission-critical customer interaction for your business.
- **Simplified Supplier Management:** Using Level 3 as your single supplier with local presence and national reach can simplify your supplier management and billing.
- **Reduce Costs:** With the Level 3 Enterprise Toll-Free service, you can lower your usage rates and consolidate your toll-free traffic. With low rates for interstate, intrastate and international calls, it's an ideal solution for your business.

## Technical Features / Capabilities

- Line Type Information Digit Routing/Blocking: Provides call blocking and routing based on the line type identifier of the originating TN (for example: pay-phone, cellular or prison).
- Enhanced Routing Feature Provisioning: Provide toll-free calling from around the country or around the world, with real-time loads, available via the MyLevel3<sup>SM</sup> customer portal.
- Toll Free Numbers: Random and vanity numbers supported.
- Real-time ANI Delivery: Receive the calling party's 10-digit TN as the call is delivered to allow caller identification.
- Dialed Number Identification Service (DNIS): Identify multiple, individually dialed toll-free numbers received over the same circuit.
- Payphone Blocking: Block toll-free calls from payphones.
- Origin-of-Call Blocking: Restrict calls by state, LATA, NPA or NPA-NXX.
- RespOrg Management: As your Responsible Organization, we can manage toll-free numbers in the SMS database.
- National Toll-Free Directory Assistance: List your toll-free numbers in the automated National Toll-Free Directory Assistance database.
- Extensive Call Detail Records (CDRs): Manage billing and service operations with detailed, accurate call records.
- Percent Allocation Routing: Distribute calls to a single toll-free number to different terminating locations based on a pre-defined percentage.
- Origin-of-Call Routing: Route calls made to a single toll-free number to different terminating locations based on point of origin.

- Time-Dependent Routing: Route incoming calls to alternate, pre-determined locations at specific times.
- Extension Routing: Prompt callers for a 1-to-15-digit extension number that is verified and mapped to a predetermined 10-digit TN.
- Busy/No Answer Overflow Routing: Direct calls to a predetermined location if the primary location is busy or does not answer. Overflow can be made to multiple DAL and 10-digit phone numbers.
- Super Trunk Routing: Enhance DS-3 circuit utilization by hunting toll-free calls across multiple trunk groups.
- Electronic Toll Free Traffic and Billing Reports: Assist your organization's traffic, cost, sales and marketing activity management.

## Why Choose Level 3 for Enterprise Toll Free?
